

INNOVATION MATURITY MODEL MANAGEMENT

"We cannot solve a problem by using the same kind of thinking we used when we created them." - Albert Einstein

Innomantra in partnering with TIM Foundation for Accreditation and Certification for organizations and individuals is based on Innovation Management Maturity Model requirement. The Model is comprised of six (6) key elements. These elements form the essential parts of innovation:

- **Culture**
- **Leadership**
- **Resources**
- **Processes**
- **Monitoring & Measuring**
- **Improvement**

Within each element of the Model has fifty-eight (58) clauses in total, form the requirements of the Model by element. The clauses are generic in nature (not sector specific) and can be easily adopted by any type of organization.

To comply or conform to the Innovation Management Maturity Model Requirement Document, an organization would need to address each clause in all elements of the Model. In doing so the organization would be developing their unique Innovation Management Maturity Model.

STANDARD ASSESSMENT

The Standard Assessment is that corresponds to the elements and clauses of Innovation Management Maturity Model. The Assessment is typically used to conduct an initial gap assessment of the organization's compliance to the Innovation Management Maturity Model Requirement Document. It can also be used for conducting external assessments. Once an organization has developed their unique Innovation Management Maturity Model the Assessment Checklist would be modified to reflect the system they developed.

STANDARD INTERPRETATION

Provides users of the Innovation Management Maturity Model Requirement Document an interpretation of the requirements of the Framework. The guideline corresponds to the elements and clauses of Innovation Management Maturity Model Requirement.

BASIC IMPLEMENTATION

The Innovation Management Maturity Model Requirement Document a generic methodology on how to adopt the Model within their organization. This corresponds to the elements of Innovation Management Maturity Model Requirement Document.

ACCREDITATION AND CERTIFICATION

The requirements and protocols associated with the TIM Accreditation and Certification Program. The Programs applies to individuals, trainers, auditors and organizations

INNOVATION METRICS

The measurements and innovation metrics of the organization's innovation capability along with innovation activities associated with the system and projects.

Inspire. Innovate.

Modern organizations have brought about sensational progress for humanity in less than two centuries—the blink of an eye in the overall timeline of our species. None of the recent advances in human history would have been possible without organizations as vehicles for human collaboration. And yet, many people sense that the current way we run organizations has been stretched to its limits. We are increasingly disillusioned by organizational life. Innomantra® enables organisations to invent in a more powerful, more soulful and more meaningful way to work together, by enabling to innovate systematically.

Overview: This intervention aims at creating an environment and organizational culture which stimulates and supports continuous Innovation through various functions and levels in the organisation.

Intervention through various proven methodologies:

- Innovation3x Functional Innovation™ - Imagine. Invent. Impact.
- Strategic Innovation
- Design Thinking™
- TRIZ™ - Theory of Inventive Problem Solving
- Inquire™ - Seeding Innovation Challenge
- Ideas to Intellectual Property
- Total Innovation Management™
- Innovation Maturity Model Management
